Personal Information Removed

**PLEASE REFER TO THE DEVELOPMENT/USE AND SUBDIVISION CHECKLIST
ON THE FOLLOWING PAGES TO DETERMINE WHAT DOCUMENTATION MUST
BE SUBMITTED WITH YOUR APPLICATION.**

Documentation required:

1. **MANDATORY DOCUMENTATION**

This information is required for the application to be valid. An application lodged without these items is unable to proceed.

- ☐ Details of the location of the proposed use or development.
- ☐ A copy of the current Certificate of Title, Sealed Plan, Plan or Diagram and Schedule of Easements and other restrictions for each parcel of land on which the use or development is proposed.
- ☐ Full description of the proposed use or development.
- ☐ Description of the proposed operation.
May include where appropriate: staff/student/customer numbers; operating hours; truck movements; and loading/unloading requirements; waste generation and disposal; equipment used; pollution, including noise, fumes, smoke or vibration and mitigation/management measures.
- ☐ Declaration the owner has been notified if the applicant is not the owner.
- ☐ Crown or Council consent (if publically-owned land).
- ☐ Any reports, plans or other information required by the relevant zone or code.
- ☐ Fees prescribed by the Council.

(please refer to <http://www.ccc.tas.gov.au/fees> or phone (03) 6217 9550 to determine applicable fees).

2. **ADDITIONAL DOCUMENTATION**

In addition to the mandatory information required above, Council may, to enable it to consider an application, request further information it considers necessary to ensure that the proposed use or development will comply with any relevant standards and purpose statements in the zone, codes or specific area plan, applicable to the use or development.

- ☐ **Site analysis plan and site plan**, including where relevant:
 - *Existing and proposed use(s) on site.*
 - *Boundaries and dimensions of the site.*
 - *Topography, including contours showing AHD levels and major site features.*
 - *Natural drainage lines, watercourses and wetlands on or adjacent to the site.*
 - *Soil type.*
 - *Vegetation types and distribution, and trees and vegetation to be removed.*
 - *Location and capacity of any existing services or easements on/to the site.*
 - *Existing pedestrian and vehicle access to the site.*
 - *Location of existing and proposed buildings on the site.*
 - *Location of existing adjoining properties, adjacent buildings and their uses.*
 - *Any natural hazards that may affect use or development on the site.*
 - *Proposed roads, driveways, car parking areas and footpaths within the site.*
 - *Any proposed open space, communal space, or facilities on the site.*
 - *Main utility service connection points and easements.*
 - *Proposed subdivision lot boundaries.*

Clarence City Council

DEVELOPMENT/USE OR SUBDIVISION CHECKLIST

- ☐ Where it is proposed to erect buildings, **detailed plans** with dimensions at a scale of 1:100 or 1:200 showing:
 - *Internal layout of each building on the site.*
 - *Private open space for each dwelling.*
 - *External storage spaces.*
 - *Car parking space location and layout.*
 - *Major elevations of every building to be erected.*
 - *Shadow diagrams of the proposed buildings and adjacent structures demonstrating the extent of shading of adjacent private open spaces and external windows of buildings on adjacent sites.*
 - *Relationship of the elevations to natural ground level, showing any proposed cut or fill.*
 - *Materials and colours to be used on rooves and external walls.*
- ☐ Where it is proposed to erect buildings, a plan of the proposed **landscaping** showing:
 - *Planting concepts.*
 - *Paving materials and drainage treatments and lighting for vehicle areas and footpaths.*
 - *Plantings proposed for screening from adjacent sites or public places.*
- ☐ Any additional reports, plans or other information required by the relevant zone or code.

This list is not comprehensive for all possible situations. If you require further information about what may be required as part of your application documentation, please contact Council's Planning Officers on (03) 6217 9550 who will be pleased to assist.

Att: Planning Department
Clarence City Council

Via email: clarence@ccc.tas.gov.au

Dear Sir/Madam

Application for development – 7 Bottlebrush Way, Risdon Vale

Please find enclosed application for development for a single residential dwelling development 7 Bottlebrush Way, Risdon Vale, and supporting documentation:

- Completed application form
- Title documents (Folio Text, Folio Plan, Schedule of Easements for SP187066)
- Part 5 agreement documents
- DA plans
- DA review and submission checklist

We have undertaken an assessment of the application and note that the proposal is to be assessed as a “discretionary” application under the General Residential Zone with respect to the following:

- Retaining wall encroachment into the side setbacks

The proposed development includes retaining walls which are located within the 1500mm side setback and we provide the following response to 8.4.2 P3 in support of the application:

- The retaining wall along the eastern boundary facilitates necessary site level adjustments due to slope. The retaining wall supports a cut, and therefore no overshadowing will be caused to the property to the east of the retaining wall. The proposal can meet the requirement of P3.

The proposed development is located on an allotment subject to the Bushfire-Prone Areas Overlay and Safeguarding of Airports Code overlay.

- The dwelling will be constructed to the assessed bushfire attack level, details of the construction requirements will be included within the building documents.
- The proposed dwelling is located within safeguarding of airports (obstacle limitation area). The proposal complies with the height restriction requirements of this code.

It is our assessment that, in all other respects, the proposed development complies with the relevant provisions of the Tasmanian Planning Scheme.

Please contact me via email should you require any additional information to assist Council's assessment of the application.

Yours faithfully
Cunic.

Parindi Mistry
Project Coordinator - Approvals

SCHEDULE OF EASEMENTS	Registered Number
NOTE: THE SCHEDULE MUST BE SIGNED BY THE OWNERS & MORTGAGEES OF THE LAND AFFECTED. SIGNATURES MUST BE ATTESTED.	SP187066

PAGE 1 OF 3 PAGES

EASEMENTS AND PROFITS

FENCING COVENANT

The owner of each Lot on the Plan covenants with Edison Tasmania Pty Ltd (the Vendor) that the Vendor shall not be required to fence.

COVENANTS

Each Lot on the Plan is subject to the covenants created by and more fully set forth in SP185980.

DEFINITIONS

'Pipeline and Services Easement' means:

FIRSTLY, THE FULL AND FREE RIGHT AND LIBERTY for TasWater and its employees, contractors, agents and all other persons duly authorised by it, at all times to:

- (1) enter and remain upon the Easement Land with or without machinery, vehicles, plant and equipment;
- (2) investigate, take soil, rock and other samples, survey, open and break up and excavate the Easement Land for any purpose or activity that TasWater is authorised to do or undertake;
- (3) install, retain, operate, modify, relocate, maintain, inspect, cleanse, repair, remove and replace the Infrastructure;
- (4) run and pass sewage, water and electricity through and along the Infrastructure;
- (5) do all works reasonably required in connection with such activities or as may be authorised or required by any law:
 - (a) without doing unnecessary damage to the Easement Land; and
 - (b) leaving the Easement Land in a clean and tidy condition;
- (6) if the Easement Land is not directly accessible from a highway, then for the purpose of undertaking any of the preceding activities, TasWater may with or without employees, contractors, agents and any other persons authorised by it, and with or without machinery, vehicles, plant and equipment enter the Land from the highway at any vehicle entry and cross the Land to the Easement Land; and
- (7) use the Easement Land as a right of carriageway for the purpose of undertaking any of the preceding purposes on other land, with TasWater reinstating any damage that it causes in doing so to any boundary fence of the Land.

NOTE: Every annexed page must be signed by the parties to the dealing or where the party is a corporate body be signed by the persons who have attested the affixing of the seal of that body to the dealing.

Handwritten signatures and initials.

ANNEXURE TO SCHEDULE OF EASEMENTS PAGE 3 OF 3 PAGES	Registered Number SP 187 066
SUBDIVIDER: EDISON TASMANIA PTY LTD (ACN 629 704 294) FOLIO REFERENCE: C/T 185980/200	

SECONDLY, the benefit of a covenant in gross for TasWater with the registered proprietor/s of the Easement Land and their successors and assigns not to erect any building, or place any structures, objects, vegetation, or remove any thing that supports, protects or covers any Infrastructure on or in the Easement Land, without the prior written consent of TasWater to the intent that the burden of the covenant may run with and bind the servient land and every part thereof and that the benefit thereof may be annexed to the easement herein described.

Interpretation:

"Infrastructure" means:

- (a) sewer pipes and water pipes and associated valves;
- (b) telemetry and monitoring devices;
- (c) inspection and access pits;
- (d) electricity assets and other conducting media (excluding telemetry and monitoring devices);
- (e) markers or signs indicating the location of the Easement Land or any other Infrastructure, or any warnings or restrictions with respect to the Easement Land or any other Infrastructure;
- (f) anything reasonably required to support, protect or cover any other Infrastructure;
- (g) any other infrastructure whether of a similar nature or not to the preceding which is reasonably required for the piping of sewage or water, or the running of electricity, through the Easement Land or monitoring or managing that activity; and
- (h) where the context permits, any part of the Infrastructure.

"TasWater" means Tasmanian Water & Sewerage Corporation Pty Ltd (ACN 162 220 653), its successors and assigns.

 - (a) without doing unnecessary damage to the Easement Land; and
 - (b) leaving the Easement Land in a clean and tidy condition;
- (6) if the Easement Land is not directly accessible from a highway, then for the purpose of undertaking any of the preceding activities, TasWater may with or without employees, contractors, agents and any other persons authorised by it, and with or without machinery, vehicles, plant and equipment enter the Land from the highway at any vehicle entry and cross the Land to the Easement Land; and
- (7) use the Easement Land as a right of carriageway for the purpose of undertaking any of the preceding purposes on other land, with TasWater reinstating any damage that it causes in doing so to any boundary fence of the Land.

SECONDLY, the benefit of a covenant in gross for TasWater with the registered proprietor/s of the Easement Land and their successors and assigns not to erect any building, or place any structures, objects, vegetation, or remove any thing that supports, protects or covers any Infrastructure on or in the Easement Land, without the prior written consent of TasWater to the intent that the burden of the covenant may run with and bind the servient land and every part thereof and that the benefit thereof may be annexed to the easement herein described.

Interpretation:

"Infrastructure" means:

- (a) sewer pipes and water pipes and associated valves;
- (b) telemetry and monitoring devices;
- (c) inspection and access pits;
- (d) electricity assets and other conducting media (excluding telemetry and monitoring devices);
- (e) markers or signs indicating the location of the Easement Land or any other Infrastructure, or any warnings or restrictions with respect to the Easement Land or any other Infrastructure;
- (f) anything reasonably required to support, protect or cover any other Infrastructure;

NOTE: Every annexed page must be signed by the parties to the dealing or where the party is a corporate body be signed by the persons who have attested the affixing of the seal of that body to the dealing.

SUBDIVIDER: EDISON TASMANIA PTY LTD (ACN 629 704 294) FOLIO REFERENCE: C/T 243571/1	

- (g) any other infrastructure whether of a similar nature or not to the preceding which is reasonably required for the piping of sewage or water, or the running of electricity, through the Easement Land or monitoring or managing that activity; and
- (h) where the context permits, any part of the Infrastructure.

"TasWater" means Tasmanian Water & Sewerage Corporation Pty Ltd (ACN 162 220 653), its successors and assigns.

LUA
Version 2 (TOLD)

Part 5 Agreement

Land Use Planning and Approvals Act 1993

Date: 2nd March 2021

Parties:

1. **Clarence City Council**, a body corporate incorporated under the provisions of the *Local Government Act 1993*, of 38 Bligh Street, Rosny in Tasmania (the **Planning Authority**).
2. **IMTKS PTY. LTD**, ACN 618 314 480 of 32 Richmond Road, Seaforth in New South Wales in its capacity as owner of the Land (the **Owner**).

Recitals:

- A. The Owner is the registered proprietor of an estate in fee simple of the Land.
- B. The Clarence City Council is the Planning Authority under the Act and for the purposes of the Planning Scheme.
- C. The Owner has submitted the Planning Application to the Planning Authority and the Planning Authority has issued the Planning Permit.
- D. Condition 4 of the Planning Permit requires:
 - (a) the Owner to covenant with the Planning Authority as more fully specified in clause 3 of this deed; and
 - (b) this deed be entered into by the parties.
- E. The Owner acknowledges that:
 - (a) the Land is subject to the Planning Scheme;
 - (b) this deed is being entered into pursuant to Part 5 of the Act and for the purpose of satisfying the condition stated in recital D; and
 - (c) the Planning Authority will register this deed pursuant to the provisions of the *Land Titles Act 1980* and that the effect of registration will be that the burden and benefit of any covenant contained in this deed will run with the Land as if it were a covenant to which section 102 (2) of the *Land Titles Act 1980* applies.

Operative Provisions:**1. Interpretation****1.1 Definitions**

In this deed, unless the contrary intention appears:

Act means *Land Use Planning and Approvals Act 1993*.

Bushfire Management Plan means the *Bushfire Hazard Report* dated December 2017 prepared by JMG Engineers and Planners in relation to the Land, a copy of which is attached and marked "B", but as amended and/or replaced from time to time as deemed necessary by Tasmania Fire Service and/or the Planning Authority.

Bushfire Protection Measures and Recommendations means those measures, and recommendations for bushfire hazard management on the Land set out within the Bushfire Management Plan.

Development means the use and development of the Land for the purposes of a 48 lot subdivision as more fully specified in the Planning Permit.

Land means the Land known as 74 Sugarloaf Road in Tasmania and being more particularly described in Certificate of Title Volume 243571 Folio 1.

Owner means the person or persons specified in this deed and include the person or persons from time to time registered or entitled to be registered by the Recorder of Titles as proprietor or proprietors of an estate in fee simple in the Land or any part of the Land and include a mortgagee in possession.

Planning Application means application number SD- 2017/42 lodged with the Planning Authority.

Planning Permit means the permit dated 15 March 2018 and amended on 19 September 2019 approving the Planning Application subject to certain conditions and restrictions as contained in the permit a copy of which is attached hereto and marked "A".

Planning Scheme means the Clarence Interim Planning Scheme 2015.

In this deed, unless the contrary intention appears:

- (a) one gender includes the other;
- (b) the singular number include the plural and vice versa;
- (c) a reference to a person includes a corporation, unincorporated body or authority;
- (d) clause headings are inserted for convenience only and will be ignored in the interpretation of this deed;
- (e) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (f) the schedule and annexures to this deed form part of this deed; and
- (g) a party includes its successors, assigns, executors and administrators.

2. Confirmation of recitals

Each of the parties to this deed confirms the recitals that relate to that party.

3. Covenants by Owner

In consideration of the Planning Authority granting the Planning Permit, the Owner hereby covenants with the Planning Authority to:

- (a) implement and maintain the Bushfire Protection Measures and Recommendations in relation to the Land.

4. Effect of the deed upon registration**4.1 Covenants to run with Land**

The parties agree and declare that the obligations imposed on the Owner under this deed are intended to take effect as covenants:

- (a) the burden of which will run with the Land as if they were covenants to which section 102 (2) of the *Land Titles Act 1980* applies; and
- (b) which shall bind the Owner, its successors, transferees and permitted assigns, and the registered proprietor or proprietors for the time being of the Land.

4.2 Agreement Under Section 71 of Part 5 of the Act

The parties agree that without limiting or restricting the respective powers to enter into this deed and, in so far as it can be so treated, this deed is made pursuant to section 71 of the Act.

4.3 Commencement of Agreement

This deed shall commence on the day that the deed is signed by all parties.

5. Registration & costs

The Owner agrees that:

- (a) an application, pursuant to section 78 of the Act shall be made by the Planning Authority to the Recorder of Titles for the registration of this deed on the folio of the Register constituting the title to the Land (and any other land to which this deed relates); and
- (b) the Owner must bear the costs and disbursements associated with the preparation, negotiation and registration of this deed including any costs or disbursements incurred or to be incurred by the Planning Authority.

6. No fettering of the Planning Authority's powers

The parties acknowledge and agree that this deed does not fetter or restrict the power or discretion of the Planning Authority in any way, including to make any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of any plans of subdivision relating to the Land or relating to any use or development of the Land.

7. Notices

Any notice under this deed may be served by delivering, either personally or by registered mail, to the parties.

PLANNING PERMIT

LAND USE PLANNING AND APPROVALS ACT 1993

Development No: SD-2017/42

Approval Date: 15 March 2018

Amendment Ref No: PDPPAMEND-2019/000819

Date of Amendment: 19 September 2019

Description: 48 Lot Subdivision (including 54 Sugarloaf Road, 1 Aralia Street & 26 Laurel Street for provision of services).

Address: 6 Aralia Street & 74 Sugarloaf Road, RISDON VALE (including 54 Sugarloaf Road, 1 Aralia Street & 26 Laurel Street for provision of services).

This permit is granted, subject to the following conditions:

General Conditions:

1. The use or development must only be undertaken in accordance with the endorsed plans, the amended plan dated 6 November 2018 and any permit conditions, and must not be altered without the consent of Council.
(Amended under Section 56 of the *Land Use Planning and Approvals Act 1993*, 13 September 2019).
2. Lot 17 is not approved as an open space lot. The Final Plan and Schedule of Easements for the development must describe Lot 17 as an infrastructure lot, which is either to be transferred to Council as such, or to become part of the road reserve.
(Amended under Section 56 of the *Land Use Planning and Approvals Act 1993*, 13 September 2019).
3. As Council has formed the opinion that the subdivision will or is likely to increase the demand for public open space and as no or no sufficient or acceptable provision has been made in the proposal plan for public open space it has been determined that payment of a cash contribution ("the Contribution") in lieu of public open space equal to 1.0 percent of the value of the area of land in the approved plan described as Lots 1-28 and Lots 30-44 inclusive is required in accordance with the provisions of Section 117 of the *Local Government (Building and Miscellaneous Provisions) Act 1993*.

Plan 1 of 12

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

5 of 34 pages

5227

The amount of the Contribution is to be based on a valuation ("the Valuation") of the specified lots by the Valuer General. Unless otherwise specified in this condition, the Valuation is to be as at the date of lodgement of the final plan of the subdivision for sealing at which time Council will instruct the Valuer General to provide the Valuation.

The landowner must pay the Valuer General's fee for any Valuation before sealing of the final plan to which the Valuation relates.

The final plan will not be sealed until the Contribution has been paid.

Where a staged subdivision is proposed the landowner must elect in writing at the time of lodging the final plan for the first stage to either:

- have the Valuation done and pay the Contribution for the lots proposed in all stages of the subdivision in which such case the lots will be valued as at the date of lodgement of the final plan for the first stage, or alternatively
- have the Valuation done and pay the Contribution for the lots proposed in stage 1 only and to have a further Valuation done and pay a separate Contribution for each subsequent stage. In this case, the Valuation of the lots in stage 1 will be as at the date of lodgement of the final plan for that stage and the Valuation of the lots in any subsequent stage will be as at the date of lodgement for sealing of the final plan for that stage.

References in this condition to payment of a Contribution include the provision of security for the same in the form of a bond by the landowner to pay the Contribution which is supported by a bank guarantee. Each of the bond and the guarantee are to be in a form acceptable to Council.

Note: There may be a delay in the sealing of the final plan to facilitate the valuation process. This may be a consideration for landowners with staged subdivisions when electing to pay collectively as one lump sum or alternatively prior to the sealing of each stage.

(Amended under Section 56 of the *Land Use Planning and Approvals Act 1993*, 13 September 2019).

4. The landowner of CT 243571/1 (74 Sugarloaf Road) must enter into an agreement with Council under Part 5 of the *Land Use Planning and Approvals Act 1993* in such form as Council may require and which provides for the following:

- The implementation and on-going maintenance of the Hazard Management Area identified in the Bushfire Report – 6 Aralia Street Subdivision prepared by JMG dated December 2017.

The agreement will be prepared and registered by Council and must be completed prior to the sealing of the Final Plan of Survey. The landowner is responsible for all Council and Land Titles Office fees and charges. Upon written request from the landowner and payment of relevant fees, Council will prepare the Part 5 Agreement.

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

6 of 24 pages

5222

5. The development must only proceed in accordance with the approved stages as set out below:
- Stage 1: Lots 11-18;
 - Stage 2: Lots 6-10, 19-23;
 - Stage 3: Lots 1-5, 24-31, 46-49;
 - Stage 4: Lots 32-45.

Engineering Conditions:

6. Each lot must be provided with a minimum 3.6m wide constructed and sealed access from the road carriageway to the property boundary in accordance with Standard Drawing TSD-R09 (Urban) (copy available from Council). This access must be inspected by Council's Clerk of Works prior to sealing or pouring new concrete.

Following construction, the crossover must be maintained or repaired by the owner in accordance with any directions given by Council to the owner and at the owner's expense.

7. A sealed driveway within the access strip to Lot 37 and with a minimum width of 3.6m must be constructed and sealed from the road carriageway for the length of the access strip prior to the sealing of the Final Plan.

8. The owner must, at their expense, repair any Council services (eg pipes, drains) and any road, crossover, footpath or other Council infrastructure that is damaged as a result of any works carried out by the developer, or their contractors or agents pursuant to this permit. These repairs are to be in accordance with any directions given by the Council.

If the owner does not undertake the required repair works within the timeframe specified by Council, the Council may arrange for the works to be carried out at the owner's expense.

9. Each lot must be provided with minimum 150mm diameter stormwater drainage connected to Council's main prior to the commencement of the use / prior to the issue of a building permit or a certificate of likely compliance (CLC) for building works. An extension to Council's stormwater main may be required at the owner's expense.

10. All services, including the street lighting system, must be underground and within the road reserve or covered by a suitable easement.

11. Engineering designs, prepared by a suitably qualified person, are required for:

- road design (including line marking);
- road stormwater drainage;
- lot accesses;
- stormwater drainage

Handwritten signature

7 of 34 pages

5/2/27

and must show the extent of any vegetation removal proposed for these works and be designed in conjunction with any landscaping plan requirement. Such designs must be submitted to and approved by Council's Group Manager Asset Management and must clearly describe what works are being undertaken for each approved stage of the development.

In accordance with Council's adopted fee schedule, a fee of 1% of the contract fee or certified construction cost will be charged for the approval of these plans and is payable upon their lodgement. A 'start of works' permit must be obtained prior to the commencement of any works.

For the Final Plan to be sealed prior to the completion of the works or the expiry of the "on-maintenance" period a bond must be paid and an agreement entered into in accordance with Council Policy. Please note that the bond for the "on-maintenance" period is 5% the cost of the construction.

Works for all stages shown on the design plans must be commenced within 2 years of the date of their approval or the engineering designs will be required to be resubmitted.

12. To prevent unauthorised vehicular access to public recreation areas, access points must be obstructed with 100mm (min) diameter posts set 1.2m (max) apart. Two posts must be removable but capable of being locked in position. The design of these posts must be approved by Council's Group Manager Asset Management.
13. An erosion and sedimentation control plan, in accordance with the *Hobart Regional Soil and Water Management on Building and Construction Sites* document, must be submitted and approved by Council's Group Manager Asset Management prior to the issue of a building permit or a certificate of likely compliance (CLC) for building works.
14. A weed management plan identifying methods to control weeds, must be submitted to and approved by Council's Group Manager Asset Management prior to [the issue of a building permit or a certificate of likely compliance (CLC) for building works or] commencement of works. The plan must:
 - reference any Weeds of National Significance and Declared Weeds under the Weed Management Act and address the spread of soil based pathogens in accordance with the Tasmanian Washdown Guidelines for Weed and Disease Control;
 - identify the weed species, initial treatment, on-going management and maintenance period thereof. The plan may include manual removal of larger plants and/or chemical control as recommended by the relevant Government department; and
 - include a detailed breakdown of estimated costs.

The Final Plan and Schedule of Easements for any stage will not be sealed until the weed management plan for that stage has been implemented and maintained to the satisfaction of Council's Group Manager Asset Management. Alternatively, a bond of 1.5 times the

Page 4 of 17

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

5222

8 of 34 pages

estimated cost of works associated with implementing the weed management plan for that stage must be submitted prior to sealing. The bond will be held as security to ensure both development and maintenance of each lot is undertaken in accordance with the approved plan until each of the newly created lots are sold or the management period has expired, whichever comes first. The bond is to be a cash deposit or a bank guarantee.

15. The Final Plan and accompanying Schedule of Easements must describe all existing easements and any additional easements required in respect of all Council infrastructure required to service the lots in a form to the satisfaction of Council's relevant / delegated officer.
16. Proposed street names for any new roads are to be submitted to Council along with the engineering design plans. The names are to comply with Council's Policy and that of the Nomenclature Board through the Department of Primary Industries, Parks, Water and Environment.
17. Street construction, including line marking, concrete kerbs, gutters and footpaths with bitumen roads, must be carried out to the requirements of Council's Local Highways Standard Requirements By-Law. Pavement designs must be based upon laboratory soaked CBR values. Line marking must be in thermoplastic material.
18. The new road must join with existing road construction in a smooth and continuous fashion and extend to the boundaries of the balance lot.
19. Suitable barriers must be erected during the stages of construction and at access points to the balance land to prevent unauthorised vehicle access.
20. All stormwater designs for the development must include Water Sensitive Urban Design principles to achieve stormwater quality and quantity targets in accordance with the State Stormwater Strategy 2010. Detailed engineering designs accompanied with a report on all stormwater design parameters and assumptions (or the MUSIC model) must be submitted to the Group Manager Asset Management for approval prior to the issue of the approved engineering drawings. This report is to include the maintenance management regime / replacement requirements for any treatment facilities.

Environmental Health Conditions:

21. Accumulated vegetation or the like must be managed by:
 - (a) chipping/mulching for removal or reuse on the site; or
 - (b) removal from the site to a location to be approved by Council's Senior Environmental Health Officer prior to such removal; or
 - (c) removal to a waste management facility licensed to take such material (receipts must be retained as proof of disposal location); or
 - (d) other method approved in writing by Council's Senior Environmental Health Officer.No on-site burning of materials is permitted unless approved in writing by Council's Senior Environmental Health Officer and the burn conducted in accordance with any directions given.

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

99 34 pages

530-0522

No on-site burning will be approved within 500m of a habitable building.
The burning of accumulated building debris (including paper, cardboard, plastic, wood etc) is not permitted and must be removed from the site and disposed of at a waste management facility licensed to take such material.

Landscaping Conditions:

22. A landscape plan for the proposed road reserves and public open space areas within the subdivision must be submitted to and approved by Council's Group Manager Asset Management prior to the commencement of works. The plans must be developed in association with the engineering plans to ensure suitable locations and planting types and the retention of as much natural vegetation as possible. Where appropriate, the plan must include construction details for footways and other public links within both road reserves and public open space areas.

Prior to the sealing of the Final Plan and Schedule of Easements for each stage the following is required.

- For landscaping, excluding hard form infrastructure, each stage is to be completed and maintained for a period of 3 years. Alternatively, a bond of 1.5 times the estimated cost of landscape works must be submitted with the landscape plan. The bond will be held as security to ensure both development and maintenance of the landscape work for a period of 3 years is undertaken in accordance with the approved plan. The bond is to be a cash deposit or a bank guarantee.
- For hard form landscaping (ie paths, footways etc), each stage is to be completed and will form part of the infrastructure which is subject to an "on-maintenance" period. For the final plan to be sealed prior to the completion of the works or the expiry of the "on-maintenance" period a bond must be paid and an agreement entered into in accordance with Council Policy.

Please note that the bond for the "on-maintenance" period is 5% the cost of the construction.

Works for all stages shown on the design plans must be commenced within 2 years of the date of their approval or the engineering designs will be required to be resubmitted.

TasWater Conditions:

23. The development must meet all required Conditions of Approval specified by TasWater notice, dated 9 February 2018 and amended 14 May 2019 (TWDA 2017/01993-CCC).

(Amended under Section 56 of the Land Use Planning and Approvals Act 1993, 13 September 2019).

The following advice is also provided:

- a. This Permit will lapse after 2 years from the date on which it is granted unless the development / use has been substantially commenced. Upon request, under Section 53(5A) of the Land Use Planning and Approvals Act 1993 Council may grant an extension of time for a further 2 years. A further 2 years may be granted upon request under Section

FILED IN 12

ORIGINAL DOCUMENT

10 of 34 pages

53(5B) of the Land Use Planning and Approvals Act 1993. Any such requests must be made in writing and within 6 months of the day on which the permit has lapsed.

- b. This is a town planning permit only. Please be aware that a building permit and / or a plumbing certificate of likely compliance or plumbing permit may be required before the development can proceed. It is recommended that you contact Council's Building Department on (03) 6217 9580 to discuss the requirement for any additional permits or certification.
- c. Non-compliance with this permit is an offence under Section 63 of the *Land Use Planning and Approvals Act 1993* and may result in enforcement action under Division 4A of the *Land Use Planning and Approvals Act 1993* which provides for substantial fines and daily penalties.

Conditions			
Pursuant to the <i>Water and Sewerage Industry Act 2008</i> (TAS) Section 56P(1) TasWater imposes the following conditions on the permit for this application: CONNECTIONS, METERING & BACKFLOW 1. A suitably sized water supply with metered connections / sewerage system and connections to each lot of the development must be designed and constructed to TasWater's satisfaction and be in accordance with any other conditions in this permit. 2. Any removal/supply and installation of water meters and/or the removal of redundant and/or installation of new and modified property service connections must be carried out by TasWater at the developer's cost. ASSET CREATION & INFRASTRUCTURE WORKS 3. Plans submitted with the application for Engineering Design Approval must, to the satisfaction of TasWater show, all existing, redundant and/or proposed property services and mains. 4. Prior to the issue of a Consent to Register a Legal Document for any release of titles the developer is responsible for the following at the developer's cost: a. Connection to sewerage in 52 Sugarloaf Road when required for the stage approval; b. Upgrade of TasWater infrastructure over 1 Aralia Street and 26 Laurel Street when required for the stage approval. c. The design and construction of up-sizing TasWater's existing DN225mm to DN375mm from Asset numbers A564887 to A564978, to the satisfaction of TasWater and generally in accordance with TasWater's 'Works External Sewer' plan as listed in the schedule of drawings/documents.

Advice: In accordance with TasWater's 'Developer Charges Policy' for developments located within Serviced Land where insufficient capacity is available within an existing system, the developer pays the costs of Extension, including connection, to that system and Expansion of the system to the level of capacity required to service the development.

5. Prior to applying for a Permit to Construct the developer must obtain from TasWater Engineering Design Approval for new TasWater Infrastructure. The application for Engineering Design Approval must include engineering design plans prepared by a suitably qualified person showing the hydraulic servicing requirements for water and sewerage to TasWater's satisfaction.
6. Prior to works commencing, a Permit to Construct must be applied for and issued by TasWater. All infrastructure works must be inspected by TasWater and be to TasWater's satisfaction.
7. In addition to any other conditions in this permit, all works must be constructed under the supervision of a suitably qualified person in accordance with TasWater's requirements.
8. Prior to the issue of a Consent to Register a Legal Document all additions, extensions, alterations or upgrades to TasWater's water and sewerage infrastructure required to service the development, generally as shown on the concept servicing plan "XYZ", are to be constructed at the expense of the developer to the satisfaction of TasWater, with live connections performed by TasWater.
9. After testing/disinfection, to TasWater's requirements, of newly created works, the developer must apply to TasWater for connection of these works to existing TasWater infrastructure, at the developer's cost.
10. At practical completion of the water and sewerage works and prior to TasWater Issuing a Consent to a Register Legal Document, the developer must obtain a Certificate of Practical Completion from TasWater for the works that will be transferred to TasWater. To obtain a Certificate of Practical Completion:
 - a. Written confirmation from the supervising suitably qualified person certifying that the works have been constructed in accordance with the TasWater approved plans and specifications and that the appropriate level of workmanship has been achieved;
 - b. A request for a joint on-site inspection with TasWater's authorised representative must be made;
 - c. Security for the twelve (12) month defects liability period to the value of 10% of the works must be lodged with TasWater. This security must be in the form of a bank guarantee;
 - d. As constructed drawings must be prepared by a suitably qualified person to TasWater's satisfaction and forwarded to TasWater.
11. After the Certificate of Practical Completion has been issued, a 12 month defects liability period applies to this infrastructure. During this period all defects must be rectified at the developer's cost and to the satisfaction of TasWater. A further 12 month defects liability period may be applied to defects after rectification. TasWater may, at its discretion, undertake rectification of any defects at the developer's cost. Upon completion, of the defects liability period the developer must request TasWater to issue a "Certificate of Final Acceptance". The newly constructed infrastructure will be transferred to TasWater upon issue of this certificate and TasWater will release any security held for the defects liability period.
12. The developer must take all precautions to protect existing TasWater infrastructure. Any damage caused to existing TasWater infrastructure during the construction period must be promptly reported to TasWater and repaired by TasWater at the developer's cost.
13. Ground levels over the TasWater assets and/or easements must not be altered without the written

Issue Date: August 2015

Tasmanian Water Services

13 of 34 pages

approval of TasWater.

14. A construction management plan must be submitted with the application for TasWater Engineering Design Approval. The construction management plan must detail how the new TasWater infrastructure will be constructed while maintaining current levels of services provided by TasWater to the community. The construction plan must also include a risk assessment and contingency plans covering major risks to TasWater during any works. The construction plan must be to the satisfaction of TasWater prior to TasWater's Engineering Design Approval being issued.

FINAL PLANS, EASEMENTS & ENDORSEMENTS

15. Prior to the Sealing of the Final Plan of Survey, the developer must obtain a Consent to Register a Legal Document from TasWater and the certificate must be submitted to the Council as evidence of compliance with these conditions when application for sealing is made.
16. Pipeline easements, to TasWater's satisfaction, must be created over any existing or proposed TasWater infrastructure and be in accordance with TasWater's standard pipeline easement conditions.

Advice: Note that TasWater easement requirements have changed. See TasWater Supplement to the Sewerage Code of Australia.

DEVELOPMENT ASSESSMENT FEES

17. The applicant or landowner as the case may be, must pay a development assessment fee and Consent to Register a Legal Document fee to TasWater, as approved by the Economic Regulator and the fees will be indexed, until the date they are paid to TasWater, as follows:
 - a. \$1,296.47 for development assessment; and
 - b. \$226.94 for Consent to Register a Legal Document
18. The payment is required within 30 days of the Issue of an invoice by TasWater.
19. In the event Council approves a staging plan, a Consent to Register a Legal Document fee for each stage, must be paid commensurate with the number of Equivalent Tenements in each stage, as approved by Council.

Advice

For information on TasWater development standards, please visit
<http://www.taswater.com.au/Development/Development-Standards>

For application forms please visit <http://www.taswater.com.au/Development/Forms>

Service Locations

Please note that the developer is responsible for arranging to locate the existing TasWater infrastructure and clearly showing it on the drawings. Existing TasWater infrastructure may be located by a surveyor and/or a private contractor engaged at the developers cost to locate the infrastructure.

A copy of the GIS is included in email with this notice and should aid in updating of the documentation.

The location of this infrastructure as shown on the GIS is indicative only.

- A permit is required to work within TasWater's easements or in the vicinity of its infrastructure. Further information can be obtained from TasWater
- TasWater has listed a number of service providers who can provide asset detection and location services should you require it. Visit www.taswater.com.au/Development/Service-location for a list of companies
- TasWater will locate residential water stop taps free of charge
- Sewer drainage plans or Inspection Openings (IO) for residential properties are available from

LIMITATIONS & DISCLAIMERS

1. Compliance with BCA is not part of the scope of this report. The report may include references to BCA as a guide to likely compliance/non-compliance of a particular aspect but should not be taken as definitive nor comprehensive in respect of BCA compliance.
2. This report presents information and opinions which are to the best of our knowledge accurate. JMG accepts no responsibility to any purchaser, prospective purchaser, or mortgagee of the property who relies in any way on this report.
3. JMG have no pecuniary interests in the property or sale of the property.
4. This report presents information provided by others. JMG do not claim to have checked, and accept no responsibility for, the accuracy of such information.
5. The effectiveness of the measures and recommendations in this report are dependent on their implementation and maintenance for the life of the development. Should the site characteristics that this assessment has been measured from alter from those identified, the BAL classification may differ and cause this report to be void. No liability can be acceptable for actions by lot owners, Council or government agencies which compromise the effectiveness of this report.
6. Whilst compliance with the recommendations of this report will enhance the likelihood of the development surviving a bushfire hazard, no guarantee is made that the development will survive every bushfire hazard event.

1 Introduction

JMG have been engaged by PJB (Tas) Pty Ltd to prepare a bushfire hazard assessment for a proposed subdivision. The certifier, Dana Elphinstone, is a qualified town planner and is an Accredited Person under Part 4A of the *Fire Service Act 1979*.

The development is proposed in a 'bushfire-prone area' as defined in the *Clarence Interim Planning Scheme 2015*, hence an assessment is required in order to satisfy the relevant planning requirements.

This report considers:

- Whether the site's location meets the definition of a bushfire-prone area;
- The characteristics of the site and surrounding land;
- The proposed use and development that may be threatened by bushfire hazard;
- The applicable Bushfire Attack Level (BAL) rating;
- Appropriate bushfire hazard mitigation measures; and
- Compliance with planning requirements pertaining to bushfire hazard.

In order to demonstrate compliance with the Bushfire-Prone Areas Code this report includes a Certificate of Compliance (for planning purposes).

2 Site Description

The subject site is land located at 6 Aralia Street, Risdon Vale (CT 130070/1, PID 1874914) comprising one title, which is approximately 3.98 ha in area with 15 m frontage to Aralia Street and 96 m frontage to Sugarloaf Road (see Figure 1). The property at 74 Sugarloaf Road (CT 243571/1, PID 5147415) will contain a temporary hazard management area and therefore forms part of the site for the purposes of a development application.

20 of 34 pages

The site has been developed with a single dwelling and detached ancillary shed.

Natural Values

The site has extensive standing vegetation which connects to bushland southwest of the site classified as '*Eucalyptus amygdalina* forest on mudstone' under the TASVEG 3.0 database. This vegetation community is not listed as threatened under the *Nature Conservation Act 2002*.

In 2011 a Tasmanian devil (*Sarcophilus harrisii*) was observed within 50 m of the site. Two sightings have been recorded within 500 m of the site and 30 observations within 5 km. The Tasmanian devil is listed as endangered under the *Threatened Species Protection Act 1995* (Tas) and the *Environmental Protection and Biodiversity Protection Act 1999* (Commonwealth).

Planning Context

The site is zoned 'General Residential' under the *Clarence Interim Planning Scheme 2015* ('the Planning Scheme') (Figure 2). It is also subject to the 'bushfire-prone area' overlay.

The site is in a developing residential area with adjoining lots to the west, north and east characterised by single dwelling residential development. Undeveloped land adjoining the site to the south has planning approval for a 73 lot subdivision under Permit No. SD2010/18.

Figure 2 - Zoning

Heritage Values

The site is not listed as having heritage value under the Planning Scheme, nor is it listed on the Tasmanian Heritage Register.

3 Proposed Use & Development

The proposed development is a 49-lot subdivision with a public open space lot (Lot 27) and 18.0 m wide road reserve, including connections to Aralia Street, Sugarloaf Road and 74 Sugarloaf Road to the south. The internal road terminates in a cul-de-sac head (radius 12.0 m) at the eastern end (Figure 3). The proposed lots range in size from 468 m² to 903 m².

THOMAS OF 5227

21 5 34 page

Figure 3 - Subdivision Plan

The subdivision is to be completed in the following stages:

- Stage 1 - Lots 11-18;
- Stage 2 - Lots 6-10, 19-23;
- Stage 3 - Lots 1-5, 24-31, 46-49;
- Stage 4 - Lots 32-45.

Subdivision plans are enclosed as Appendix A.

4 Bushfire Hazard Assessment

The proposed subdivision is within 100 m of over 1 ha of contiguous unmanaged vegetation and therefore is within a 'bushfire prone area' as defined in the Planning Scheme.

The key factors affecting bushfire behaviour are fuel, weather conditions and topography. This section of the report considers these factors in the context of AS 3959-2009 - *Construction of buildings in bushfire-prone areas*, which is required in order to determine compliance with planning and building requirements for bushfire protection.

4.1 Vegetation & Effective Slope

AS 3959-2009 provides categories for classifying vegetation based on structural characteristics.

'Effective Slope' refers to the slope of land underneath bushfire-prone vegetation relative to the subject site. Effective Slope affects a fire's rate of spread and flame length and is accordingly a critical aspect affecting bushfire behaviour. AS 3959-2009 refers to five categories of Effective Slope and these have been used for the purpose of this analysis.

Figure 4 shows land within 100m of the site as this is the minimum area for consideration under the current planning and building regulations. The site was inspected on 28 March 2016 and 25 October 2017.

Figure 4 - Site Analysis

Onsite Vegetation

The onsite vegetation on the western portion of the site is characterised by eucalypt and acacia regrowth shrubs and small trees regrowth generally 2-4 m in height (Figure 5). The foliage cover varies but is generally greater than 30%. This vegetation is classified as 'Group D - Scrub'.

Figure 5 - Scrub vegetation onsite looking east from Sugarloaf Road

JMG

23 of 34 pages

22

The eastern portion of the site has a slightly taller canopy than the western Scrub vegetation. The height of eucalypts ranges from 4-10 m, with foliage cover >30%. The understorey includes eucalypts, acacias and grasses. This vegetation is classified as 'Group A-Forest' (Figure 6).

Figure 6 - Forest vegetation on eastern side of site.

North

Land located north of the subdivision is characterised by existing residential development, typically detached single dwellings with maintained cultivated gardens and associated unvegetated road reserves. The vegetation on land within 100 m north of the site is classified as 'Low Threat' in accordance with clause 2.2.3.2 (e) and (f).

East

The surrounding residential land to the north east is highly developed. The vegetation surrounding dwellings and unvegetated areas such as driveways is typically lawns and cultivated gardens and is classified as low threat. The large block adjoining the site to the east is 16 Marlock Street. This property is largely cleared and is vegetated with lawns <100.0mm in height and scattered tall trees (Figure 7). This vegetation considered low threat.

ASAM SP 522

24 of 34 pages

Figure 7 - Vegetation on 16 Marlock Street (West of site). Forest vegetation on 6 Aralia Street and 74 Sugarloaf Road is visible in the background along the shared boundary

South

The vegetation on 74 Sugarloaf Road south of the site is a mixture of low dense bushland and more open pasture with scattered trees. Figure 4 shows the distribution of vegetation types on 74 Sugarloaf Road. The vegetation is generally an extension of that seen on the subject site (Figure 8 and Figure 9), with the exception of a largely cleared portion to the south that is classified as 'Group B - Woodland' (Figure 10). The vegetation classified as Woodland is composed of low grasses with small shrubs and trees including eucalypts and acacias scattered sparsely providing less than 30% foliage cover (Figure 10). The average height of trees is approximately 6 m.

West

Land west of the site is characterised by existing residential development, typically detached single dwellings with maintained cultivated gardens and associated unvegetated road reserves. This vegetation is classified as 'Low Threat' in accordance with clause 2.2.3.2 (e) and (f).

South west of the site is a large undeveloped block vegetated with grass >100.0 mm in areas. This vegetation is classified as 'Group-G - Grassland'.

Figure 11 - Grassland located south west of site

4.2 Required Separation

Table 1 sets out the required separation distances from bushfire-prone vegetation to achieve the corresponding BAL level.

The development standards for subdivision under the Bushfire-Prone Areas Code of the Planning Scheme requires that building areas are suitable to accommodate a minimum BAL-19 rated building.

Table 1 - Required Minimum Separation

VEGETATION CLASSIFICATION	EFFECTIVE SLOPE	MIN. SEPARATION FOR BAL-19 (m)	MIN. SEPARATION FOR BAL-12.5 (m)
Group A - Forest	Upslope	23-<32	32-<100
Group B - Woodland	Upslope	15-<22	22-<100
Group G - Grassland	Upslope	10-<14	14-<50

5 Bushfire Protection Measures

During a bushfire event, a number of bushfire attack mechanisms may threaten buildings and occupants, including:

- Radiant heat;
- Direct flame contact;
- Ember attack; and
- Wind.

A range of bushfire protection measures are recommended to improve the resilience of the proposed development and achieve a tolerable level of residual risk for occupants. The protection measures outlined in this section have been consolidated in a Bushfire Hazard Management Plan ('BHMP') Appendix B).

Additional measures to reduce improve resilience are also recommended but are at the discretion of the developer and future developers within the subdivision.

5.1 Hazard Management Areas

A hazard management area must be established and maintained on every lot in each stage in a minimum fuel condition to provide defensible space and reduce the potential for direct flame contact and radiant heat exposure to the house in accordance with the Bushfire Hazard Management Plan.

Interim Hazard Management Areas will be required to be established by the developer prior to the sealing of titles for each stage of the subdivision to ensure minimum separation is achieved to allow BAL-LOW construction. The developer is to maintain each HMA until the next stage of subdivision is complete (e.g. the Stage 1 HMA must be maintained until Stages 2-3 are complete), at which time the owner/s of the lot/s become responsible for maintaining each lot in a minimal fuel condition in accordance with the BHMP. The Interim HMAs are included on the BHMP for each stage.

A further Interim HMA will be established on the adjoining property to the south at 74 Sugarloaf Road. This HMA will be adhered to the whole 74 Sugarloaf Road title via a Part V Agreement under the *Land Use Planning and Approvals Act 1993* and will remain in place until such time as the threat has been removed and/or the land is subdivided. The developer of the subject site will be responsible for the maintenance of the Interim HMA.

The ongoing maintenance of the Interim HMA's for Stage 1 and Stages 2-3 will also be the responsibility of the developer.

The bushfire hazard management plan ('BHMP') contains specific management prescriptions for the hazard management area (Table 2). A typical diagram for a hazard management area is shown in Figure 12.

Table 2 - Hazard Management Area Prescriptions

Within 10m of habitable buildings	• No storage of flammable materials (e.g. firewood); • Avoid locating flammable garden materials near vulnerable building elements such as glazed windows/doors, decks and eaves (e.g. non-fire retardant plants and combustible mulches); • Non-flammable features such as paths, driveways and paved areas are encouraged around habitable buildings.
Trees within HMA	• Maintain canopy separation of approximately 2.0m; • Ensure no branches overhang habitable buildings; • Remove tree branches within 2.0m of ground level below;

JING

6 Aralia Street • December 2017

12

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

30-01-2018

28 g 34 page

	• Locate any new tree plantings 1.5 x their mature height from house; • Avoid planting trees with loose, stringy or ribbon bark.
Understory vegetation within HMA	• Maintain grass cover at <100mm; • Maintain shrubs to <2.0m height; • Shrubs to be maintained in clumps so as to not form contiguous vegetation (i.e. clumps up to 10sqm in area, separated from each other by at least 10m); • Avoid locating shrubs directly underneath trees; • Periodically remove dead leaves, bark and branches from underneath trees and around habitable buildings.

Figure 12 - Example of hazard management area

5.2 Construction Standards

Future habitable buildings located within the specified building areas and provided with the requisite hazard management areas are to be designed and constructed to a minimum of BAL-LOW standard under AS 3959-2009 (as indicated on the BHMP). Applicable permitted construction variations under AS 3959-2009 are outlined in Table 3 below.

The minimum setbacks from bushfire-prone vegetation are demonstrated on the BHMP. All lots have building areas that can achieve minimum BAL-LOW separation due to the HMA to be maintained at 74 Sugarloaf Road, and existing separation from bushfire-prone vegetation.

Table 3 - Construction Requirements and Construction Variations (as per Table 4.1 of the Director's Determination)

Element	Requirement
A. Polycarbonate Sheeting for walls and roofs.	May be used in exposures up to and including BAL 19. <i>Comment: refer to the TFS Chief Officer's Bushfire Advisory Note 3.</i>

THIS IS A COPY OF THE
ORIGINAL DOCUMENT

TFS - 00522

29 & 34 pages

Element	Requirement
B. Straw Bale Construction	May be used in exposures up to and including BAL 19.
C. Shielding provisions under Section 3.5 of AS3959-2009	To reduce construction requirements due to shielding, building plans must include suitable detailed elevations or plans that demonstrate that the requirements of Section 3.5 of the Standard can be met. <i>Comment: Application of Section 3.5 of the Standard cannot result in an assessment of BAL - LOW.</i>

5.3 Access

The final designs for roads and private access will occur during detailed design. The following requirements apply to the provision of roads and private access within the development.

Roads

The new subdivision road network will have a minimum width of 18 m. The subdivision will have road connections from Aralia Street, Sugarloaf Road and to the adjoining property to the south (74 Sugarloaf Road). The subdivision road will be a through road to Sugarloaf Road and will terminate in a cul-de-sac head at the eastern end of the site and with an outer radius of 12.0 m.

The southern access road will align with the future road network on 74 Sugarloaf Road. A fire hydrant will be provided on the main through road (i.e. road running east-west) and will be within 120 m of lots 27, 28 and 29 (i.e. lots that front the southern access road). Due to this, fire fighting vehicles will not be required to use this access and therefore a temporary turning head on this section of road will not be required.

All building areas are within 30.0 m of the public road, and as there is no requirement for access to a water connection point, there are no design or construction requirements for property access. Alteration to the layout of building envelopes or the provision of a static water supply for fire fighting would require a reassessment of the access requirements for lots.

The subdivision road (as required for access) must meet the following requirements:

- Two-wheel drive, all-weather construction;
- Load capacity of at least 20 tonnes (including bridges/culverts);
- Minimum carriageway width of 7.0m for a through road, or 5.5 m for a dead-end or cul-de-sac road;
- Minimum vertical clearance of 4.0m and horizontal clearance of 2.0 m from the edge of the carriageway;
- Cross falls of less than 3 degrees (1:20 or 5%);
- Maximum gradient of 15 degrees (1:3.5 or 28%) for sealed roads, and 10 degrees (1:5.5 or 18%) for unsealed roads;
- Curves have a minimum inner radius of 10m;
- Dead-end or cul-de-sac roads are not more than 200 m in length unless the carriageway is 7 m in width;
- Dead-end or cul-de-sac roads have a turning circle with a minimum 12 m outer radius; and

JING

6 Aralia Street - December 2017

14

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

30 3 34 page

330- 50522

- Carriageways less than 7 m wide have 'No Parking' zones on one side, indicated by a road sign that complies with *Australian Standard AS1743-2001 Road signs-Specifications*.

5.4 Water

Each lot within the proposed subdivision must be provided with a water supply dedicated for firefighting. The site is located in an area with a reticulated water service which will be extended into the proposed subdivision. As such, fire hydrants must be provided within the proposed subdivision. Fire hydrants must be installed in accessible locations and all parts of future habitable buildings must be within 120 m of a fire hydrant measured as hose lay. The fire hydrants must be installed within the road reserve and constructed in accordance with Table 4.

Table 4 - Water Supply Specification

Table E4 Reticulated Water Supply for Fire fighting
A. Distance between building area to be protected and water supply
The following requirements apply:
a) The building area to be protected must be located within 120 metres of a fire hydrant; and
b) The distance must be measured as a hose lay, between the water connection point and the furthest part of the building area.
B. Design criteria for fire hydrants
The following requirements apply:
a) fire hydrant system must be designed and constructed in accordance with <i>TasWater Supplement to Water Supply Code of Australia WSA 03 - 2011-3.1 MRWA 2nd Edition</i> ; and
b) fire hydrants are not installed in parking areas.
C. Hardstand
A hardstand area for fire appliances must:
a) No more than three metres from the hydrant, measured as a hose lay;
b) No closer than six metres from the building area to be protected;
c) A minimum width of 3m constructed to the same standard as the carriageway; and
d) Connected to the property access by a carriageway equivalent to the standard of the property access.

5.5 Optional Protection Measures

The following recommendations are not specifically regulated under any planning or building standards at present hence do not form part of the bushfire hazard management plan. If implemented however, they will improve bushfire protection for future occupants.

Electrical Infrastructure

Overhead power lines are a common source of unplanned fires, particularly during high wind conditions. Where practicable, electricity connections to properties should be provided underground to remove this potential fire source.

Building Design

Building configuration can be utilised to improve building resilience. It is recommended that future developers of buildings within the subdivision consider adopting the following design features:

- Simple roof shapes with roof pitch at 18° or greater, to reduce the potential for ember accumulation. This measure ought to be combined with non-combustible gutter guards to prevent accumulation within guttering;
- Simple building shapes are preferable, as they reduce opportunity for embers and debris to be trapped against the building within re-entrant corners;
- Keep walls as low as possible. Large expansive walls present greater surface area to wind turbulence and to radiant heat;
- Slab-on-ground construction is generally more resilient than suspended slab construction.

6 Planning Requirements

6.1 Clarence Interim Planning Scheme 2015

The *Clarence Interim Planning Scheme 2015* ('the Planning Scheme') is the relevant planning instrument for the assessment of the proposed development.

Compliance with the Bushfire-Prone Areas Code is addressed in Table 5.

Table 5 - Compliance with Bushfire Prone Areas Code

CLAUSE		COMPLIANCE
E1.6.1.1 Subdivision: Provision of hazard management areas	A1	The proposed BHMP provides habitable building areas and associated hazard management areas for each lot adequate to accommodate BAL-LOW rated development. BAL-LOW construction can be achieved due to the Interim Hazard Management Area to be provided on 74 Sugarloaf Road as well as existing separation from bushfire prone vegetation. The Interim HMA on 74 Sugarloaf Road has been discussed with the land owner and written consent for the Part 5 Agreement is included as Appendix C. The BHMP is certified as compliant with A1(b).
E1.6.1.2 Subdivision: Public access	A1	The BHMP shows the layout of the proposed public road (through road) that will facilitate firefighter access to fire hydrants and buildings. The proposed public road will be constructed to IPWEA standards and will meet the minimum requirement for a Class 4A/4B road. The southern access road will align with the future road network on 74 Sugarloaf Road. A fire hydrant will be provided on the main through road (i.e. road running east-west) and will be within 120 m of

CLAUSE		COMPLIANCE
		lots 27, 28 and 29 (i.e. lots that front the southern access road). Due to this, fire fighting vehicles will not be required to use this access and therefore a temporary turning head on this section of road is not required. Fire fighting access is only required using the through road and compliant cul-de-sac head within the subdivision. All parts of all building areas are within 90 m of the public road. No fire trails are proposed. The BHMP is certified as being compliant with A1(b).
E1.6.1.3 Subdivision: Provision of water supply for fire fighting purposes	A1	The BHMP requires the installation of fire hydrants within 120 m of all building areas, consistent with the minimum requirements. The proposal is certified as compliant with A1(b).

A Certificate of Compliance is attached as Appendix D.

7 Conclusion & Recommendations

The proposed subdivision is located in a bushfire-prone area with forest vegetation within, and external to, the site presenting the greatest risk to future development.

The Bushfire Hazard Management Plan prepared for the subdivision outlines the required protection measures including hazard management areas, building siting and construction, access, and water supply standards. Protection measures reduce bushfire risk to future residents, developments and to firefighters, as outlined in this report and the associated bushfire hazard management plan. The Bushfire Hazard Management Plan is certified as compliant with the Bushfire-Prone Areas Code.

Access is via the proposed road network using the through road and terminating in a cul-de-sac at the eastern end of the subdivision. An interim turning head is not required on the southern access road connecting into 74 Sugarloaf Road as all properties with frontage to this access are within 120 m of a fire hydrant provided on the main east-west through road.

All building areas are within 90 m of the public road.

Interim Hazard Management Areas will be required during construction of later stages to provide sufficient separation for BAL-LOW construction for lots sealed prior to the finalisation of the subdivision.

Under a Part 5 Agreement adhered to each title the owner/s of each lot adjoining 74 Sugarloaf Road will be equally responsible for the maintenance of the Hazard Management Area on 74 Sugarloaf Road until the hazard is removed.

Future developers of all proposed lots may rely on this report in support of their building permit applications to demonstrate compliance with the *Building Regulations 2014*, insofar as it regulates bushfire protection.

This **Agreement** is made on the 20th day of November 2022/3

BETWEEN

EDISON TASMANIA (ACN 629 704 294) as trustee of the EDISON TASMANIA UNIT TRUST c/- Presidio Partners, Level 2/ 222 Pitt Street, Sydney in New South Wales 2000 ("**Owner**")

and

CLARENCE CITY COUNCIL of 38 Bligh Street, Rosny Park in Tasmania 7018 ("**Council**")

OPERATIVE PROVISIONS

1. OBJECTIVES

- a. The Owner is the registered proprietor of an estate in fee simple in the Land.
- b. Council is the planning authority under the Act and for the purposes of the Planning Scheme.
- c. This Agreement is entered into pursuant to Part 5 of the Act.
- d. The purpose of the Agreement is to record various agreements between the Owner and Council in accordance with the matters in Condition 2 of the Planning Permit.
- e. It is the intention of the parties that this Agreement will have the effect of binding the current and future owners of the Land as expressed in this Agreement. The covenants in this Agreement shall run with the as if they were covenants to which section 102(2) of the *Land Titles Act 1980* (Tas) applies.
- f. This Agreement is to be registered pursuant to section 78 of the *Land Use Planning and Approvals Act 1993* (Tas). This Agreement shall commence on the Commencement Date, notwithstanding that registration may occur after the Commencement Date.

2. LAND

This Agreement applies to the Land, being that comprised in Folio of the Register Volume 243571 Folio 1 presently known as 74 Sugarloaf Road, Risdon Vale in Tasmania.

3. DEFINITIONS AND INTERPRETATIONS

In this Agreement, unless the contrary intention appears:

Act means the *Land Use Planning and Approvals Act 1993* (Tas).

Agreement means this agreement including any schedules, attachments and annexures.

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

SHANG
21/11/23

Commencement Date means the date of this Agreement.

General Manager means the General Manager for the time being of Council and their successors in office.

Land means the whole of the land in Folio of the Register Volume 243571 Folio 1 presently known as 74 Sugarloaf Road, Risdon Vale in Tasmania 7016.

Lots means those parts of the Land shown as lots 1 – 7 (inclusive) and lot 9 on the Plan.

Lot means each individual lot 1, 2, 3, 4, 5, 6, 7 and 9, as shown on the Plan.

Owner means the Owner specified in this Agreement and includes the person or persons from time to time registered or entitled to be registered by the Recorder of Titles as proprietor or proprietors of an estate in fee simple in the Land or any part of the Land and includes a mortgagee in possession.

Plan means the draft plan annexed to this Agreement and marked ANNEXURE A.

Planning Permit means the planning permit issued by Council dated 6 September 2019 approving the planning application No. SD-2019/1 subject to certain conditions and restrictions as contained in the permit, related to the Owner's development of the Land.

Planning Scheme means the Tasmanian Planning Scheme – Clarence.

4. COVENANTS

The Owner covenants with Council that:

Fence

- a. Prior to the sealing of the Lots, the Owner will construct a fence along the Sugarloaf Road boundary of Lots 1 – 7 (inclusive) and Lot 9 as required by condition 2 of the Planning Permit (**the Fence**). The Fence must have a maximum height of 1.2m above natural ground level if solid, or 1.5 m above natural ground level if any part of the fence that is within 3m of a primary frontage has openings above a height of 1.2m which provide a uniform transparency of not less than 30% (excluding any posts or uprights).
- b. The Owner is under an obligation to maintain the Fence in good order and once each Lot is assigned, the Owner of the Lot is under an obligation to maintain in good order that section of the Fence which is on the boundary of the Lot.

Access from Sugarloaf Road

- c. In accordance with condition 2 of the Planning Permit, no direct vehicular access may be provided from Sugarloaf Road to the Lots.

5/11/23

5. DISPUTE

- a. If a dispute arises between the parties under this Agreement, then (except in the case of action required to be taken under statute) the parties agree that it must be resolved expeditiously in accordance with the provisions of this clause.
- b. If a dispute arises requiring resolution, a party must serve a notice on the other specifying the nature and substance of the matter in dispute.
- c. If, within thirty (30) days of a notice under clause 5(b) being served, the parties are unable to resolve the dispute, then the dispute must be submitted by the parties for resolution under the following sub-clauses.
- d. The matter in dispute must be referred for resolution by a person of appropriate qualifications and experience, as agreed between the parties, who will act as mediator and conduct a mediation concerning the matter in dispute.
- e. The costs of all mediation under this clause are to be shared equally between the parties.
- f. Each of the parties agrees to use their best endeavours to resolve the dispute through mediation.
- g. If a dispute cannot be settled within thirty (30) days (or such other period as the parties agree) of one party serving a notice of that dispute in accordance with clause 5(b), the dispute must be determined under the provisions of the *Commercial Arbitration Act 1986*.

6. SEVERANCE

If any provision of this Agreement or its application to any person or circumstance is or becomes invalid, illegal or unenforceable, then so far as possible, the provision will be read down to the extent necessary to ensure that it is not illegal, invalid or unenforceable. If any provision or part of it cannot be so read down, then the provision or part of it will be taken to be void and severable and the remaining provisions of this Agreement will not be affected or impaired in any way.

7. NOTICES

- a. A notice or other communication given or made under this Agreement must be in writing and addressed to the party to whom the notice is to be given at the address for service of notices as agreed by the parties from time to time.
- b. A notice or other communication is taken to have been duly served:
 - i. in the case of hand delivery - when delivered;
 - ii. if sent by prepaid post - on the third business day after the date of posting;
 - iii. if sent by facsimile transmission (only if the sending facsimile machine produces a print out of the time, date and uninterrupted transmission

5/11/23
21/11/23

record of the sending of the notice) - upon completion of sending if completion is within ordinary business hours in the place where the recipient's facsimile machine is located, but if not, then at 9.00 a.m. on the next business day in that place;

- iv. if sent by email, when the recipient becomes capable of receiving the email during ordinary business hours (unless the sender receives an automated message that the email has been delayed or delivery has failed).
- c. A notice or other communication given or made under this Agreement is sufficient if:
 - i. in the case of the Council, it is under the hand of the General Manager or a duly authorised officer of the Council or the Council's solicitors;
 - ii. in the case of the Owner, it is under the hand of the Owner or their solicitor.
- d. A printed or copied signature is sufficient for the purposes of sending any demand, written consent or other communication by facsimile transmission or by email.

8. COSTS

The Owner and Council agree that:

- a. the Owner must bear the costs and disbursements associated with the preparation, negotiation and registration of this Agreement including any costs or disbursements incurred or to be incurred by Council; and
- b. unless this Agreement provides to the contrary, each party must pay its own costs incurred in the future operation of this Agreement.

9. COUNCIL POWERS

The parties acknowledge and agree that this Agreement does not fetter or restrict the powers or discretions of Council as planning authority in any way, including to make any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of plans relating to the Land or development of the Land.

OPERATIVE PART

1. DEFINITIONS

In this Agreement, unless the contrary intention appears:

Agreement means this agreement including any schedules, attachments and annexures.

Bushfire Hazard Management Plan means the plan at Annexure B of the Bushfire Report, annexed and marked "B".

Bushfire Management Area means the area of the Property 32 metres wide identified for hazard management in the Bushfire Hazard Management Plan;

Bushfire Report means the report prepared by Johnson McGee & Gandy Pty Ltd dated February 2022, annexed to this agreement and marked **Annexure B**.

Expiry Date means the date on which development of both the Land and permanent management of the vegetation classified by the Bushfire Report occurs.

Plan means the Plan of the proposed subdivision of the Land annexed to this agreement and marked Annexure A;

2. INTERPRETATION

In this Agreement:

- a. the expression "Owner":
 - i. can mean more than one person;
 - ii. includes the successors and assigns of the Owner;
 - iii. includes any person deriving title to the Owner's Land or any part of the Owner's Land from the Owner;

Clarence City Council and Edison Tasmania Pty Ltd
PDPART5-2023/034652
74 Sugarloaf Road, Risdon Vale

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

- b. where the Owner comprises more than one person, those persons are jointly and each of them is severally liable under this Agreement;
- c. clause headings are inserted for convenience only and do not affect the interpretation of this Agreement;
- d. a recital, schedule, annexure or a description of the parties forms part of this Agreement;
- e. where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning; and
- f. a party includes its successors assigns, executors and administrators.

3. COVENANTS ON THE PART OF THE OWNER

3.1. The Owner covenants with Council to:

- a) prior to the sealing of the final plan of survey, to undertake the bushfire protection measures on the Property within the Hazard Management Area as set out in the Bushfire Hazard Management Plan; and
- b) following the measures carried out in accordance with **clause 3.1(a)**, thereafter maintain at all times the Hazard Management Area in the modified condition required by the Bushfire Report.

4. ENFORCEMENT

4.1. Council may enforce the covenant in this Agreement at its sole discretion.

The Owner agrees that Council has no enforcement obligation in respect of this Agreement. Enforcement of this Agreement is to be at the suit of or by action by such of the Owner may feel aggrieved by any conduct, act or omission on the part of the other.

5. RELEASES AND INDEMNITIES BY THE OWNER

5.1. To the fullest extent allowable at law the Owner releases and indemnifies the Council jointly and severally from any claim, expense, liability, loss or injury including death arising from or connected with:

- a) anything done on the Property by the Owner, its agents or contractors, in exercising the rights conferred by this Agreement except where; or
- b) any failure on the Owner's part to implement the bushfire protection measures contained within the Bushfire Report and maintain the Hazard Management Area in accordance with the Owner's rights and obligations under this Agreement.

6. DISPUTE

6.1. If a dispute arises between the parties under this Agreement, then (except in the case of action required to be taken under statute) the parties agree that it must be resolved expeditiously in accordance with the provisions of this clause.

6.2. If a dispute arises requiring resolution, a party must serve a notice on the other specifying the nature and substance of the matter in dispute.

6.3. If, within thirty (30) days of a notice under **clause 6.2** being served, the parties are unable to resolve the dispute, then the dispute must be submitted by the parties for resolution under the following sub-clauses.

6.4. The matter in dispute must be referred for resolution by a person of appropriate qualifications and experience, as agreed between the parties, who will act as mediator and conduct a mediation concerning the matter in dispute.

6.5. The costs of all mediation under this clause are to be shared equally between the parties.

6.6. Each of the parties agrees to use their best endeavors to resolve the dispute through mediation.

7. SEVERANCE

If any provision of this Agreement or its application to any person or circumstance is or becomes invalid, illegal or unenforceable, then so far as possible, the provision will be read down to the extent necessary to ensure that it is not illegal,

invalid or unenforceable. If any provision or part of it cannot be so read down, then the provision or part of it will be taken to be void and severable and the remaining provisions of this Agreement will not be affected or impaired in any way.

8. NOTICES

- 8.1. A notice or other communication given or made under this Agreement must be in writing and addressed to the party to whom the notice is to be given at the address for service of notices as agreed by the parties from time to time.
- 8.2. A notice or other communication is taken to have been duly served:
- a) in the case of hand delivery - when delivered;
 - b) if sent by prepaid post - on the third business day after the date of posting;
 - c) if sent by email, when the recipient becomes capable of receiving the email during ordinary business hours (unless the sender receives an automated message that the email has been delayed or delivery has failed).
- 8.3. A notice or other communication given or made under this Agreement is sufficient if:
- a) in the case of the Council, it is under the hand of the Chief Executive Officer or a duly authorised officer of the Council or the Council's solicitors;
 - b) in the case of the Owner, it is under the hand of the Owner or their solicitor.
- 8.4. A printed or copied signature is sufficient for the purposes of sending any demand, written consent or other communication by email.

9. COSTS

The Owner and Council agree that:

- a) the Owner must bear the costs and disbursements associated with the preparation, negotiation and registration of this Agreement including any costs or disbursements incurred or to be incurred by Council; and

Presidio Partners, Level 2/ 222 Pitt Street, Sydney in New South Wales 2000 ("Protected
Owner")

OPERATIVE PROVISIONS

1. OBJECTIVES

- a. The Owner is the registered proprietor of an estate in fee simple in the Land.
- b. The Protected Owner is currently the registered proprietor of an estate in fee simple in 74 Sugarloaf Road, from which the Protected Lots will be subdivided in accordance with the Planning Permit.
- c. Council is the planning authority under the Act and for the purposes of the Planning Scheme.
- d. This Agreement is entered into pursuant to Part 5 of the Act.
- e. The purpose of the Agreement is to record an agreement between the Owner, Council and the Protected Owner in relation to ongoing bushfire hazard management of the Bushfire Hazard Management Area.
- f. It is the intention of the parties that this Agreement will have the effect of binding the current and future owners of the Land and the Protected Lots. The covenants in this Agreement shall run with the Land and the Protected Lots as if they were covenants to which section 102(2) of the *Land Titles Act* 1980 (Tas) applies.
- g. This Agreement is to be registered pursuant to section 78 of the *Land Use Planning and Approvals Act* 1993 (Tas). This Agreement shall commence on the Commencement Date, notwithstanding that registration may occur after the Commencement Date. This Agreement shall end on the Expiry Date.

2. LAND

This Agreement applies to;

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

SHaring
21/11/23

- a. the Land, being the whole of the land comprised in Folio of the Register Volume 127474 Folio 2 presently known as 18 Downhams Road, Risdon Vale in Tasmania; and
- b. the Protected Lots, which as at the date of this Agreement form part of 74 Sugarloaf Road, being the whole of the land comprised in Folio of the Register Volume 243571 Folio 1 presently known as 74 Sugarloaf Road, Risdon Vale in Tasmania.

3. DEFINITIONS AND INTERPRETATIONS

In this Agreement, unless the contrary intention appears:

74 Sugarloaf Road means the whole of the land in Folio of the Register Volume 243571 Folio 1 presently known as 74 Sugarloaf Road, Risdon Vale in Tasmania 7016.

Act means the *Land Use Planning and Approvals Act* 1993 (Tas).

Agreement means this agreement including any schedules, attachments and annexures.

Bushfire Hazard Management Area means that part of the Land marked in green and identified as such on the Plan.

Commencement Date means the date on which the survey plan for 'stage 2' (containing the Protected Lots) of the Protected Owner's development of 74 Sugarloaf Road is sealed by Council.

Expiry Date means the date on which the Land is developed to the extent that the Land no longer poses a bushfire threat to the Protected Lots and consequently the Protected Lots are no longer considered a 'bushfire prone area' as defined by the Planning Scheme.

General Manager means the General Manager for the time being of Council and their successors in office.

Land means the whole of the land comprised in Folio of the Register Volume 127474 Folio 2 presently known as 18 Downhams Road, Risdon Vale in Tasmania 7016.

Owner means the Owner specified in this Agreement and includes the person or persons from time to time registered or entitled to be registered by the Recorder of Titles as proprietor or proprietors of an estate in fee simple in the Land or any part of the Land and includes a mortgagee in possession.

Plan means the Bushfire Hazard Management Plan prepared by JMG Engineers and Planners dated 17 July 2019, annexed to this Agreement marked 'ANNEXURE A'.

Planning Permit means the planning permit issued by Council dated 6 September 2019 approving the planning application No. SD-2019/1 subject to certain conditions and restrictions as contained in the permit, related to the Protected Owner's development of 74 Sugarloaf Road.

Planning Scheme means the Tasmanian Planning Scheme – Clarence.

I HEREBY CERTIFY THAT
THIS IS A COPY OF THE
ORIGINAL DOCUMENT

5 Nov 19
21/11/23

Protected Lots means each of the Lots 33-40 inclusive shown on the Plan, to derive from 74 Sugarloaf Road in accordance with the Planning Permit (and until they are subdivided a reference to the Protected Lots means 74 Sugarloaf Road or any part of it from which the Protected Lots will result).

Protected Owner means the owner for the time being of the Protected Lots and includes the person or persons from time to time registered or entitled to be registered by the Recorder of Titles as proprietor or proprietors of an estate in fee simple in the Protected Lots and includes a mortgagee in possession, and if more than one, then each of those owners jointly and severally (and until the Protected Lots are subdivided, a reference to the Protected Owner is the proprietor of 74 Sugarloaf Road or any part of it from which the Protected Lots will result).

Report means the Bushfire Report prepared by JMG Engineers and Planners dated July 2019, annexed to this Agreement and marked 'ANNEXURE B'.

Term means the period commencing on Commencement Date and ending on the Expiry Date.

4. COVENANTS

The Parties acknowledge that, in accordance with the Act, this Agreement is made under seal and binds the Protected Owner and the Owner to the covenants in it. The Protected Owner and the Owner covenant with the Council and each other as follows;

4.1 *Covenants on the part of the Protected Owner*

The Protected Owner covenants with Council to:

- a. before a certificate of occupancy is issued under the *Building Act 2016* for the Protected Owner's development of the Protected Lots, to undertake the bushfire protection measures within the Bushfire Hazard Management Area so as to put the Bushfire Hazard Management Area in a reduced fuel condition as set out in the Report; and
- b. following the measures carried out in accordance with clause 4.1(a), thereafter maintain at all times the Bushfire Hazard Management Area in the modified condition required by the Report,

and in doing so the Protected Owner agrees;

- c. to bear all legal costs reasonably incurred by the Owner in seeking legal advice in respect of entering this Agreement and its terms;
- d. to take all reasonable care in accessing the Land including the Bushfire Hazard Management Area;
- e. to only do so much as is reasonably necessary to clear and maintain the Bushfire Hazard Management Area to the extent required by the covenant in clause 4.1(a) and (b);

5/11/23
21/11/23

- f. to not break the surface of the Bushfire Hazard Management Area except where, with the consent of the Owner, it is necessary to do so to remove tree stumps;
- g. so far as reasonably practicable, to make good any damage done to the surface of the Bushfire Hazard Management Area and the Land in doing any works necessary for the implementation of this Agreement;
- h. to remove at its cost all vegetation which has been cut down or pulled from the ground, including felled trees, from the Land; and
- i. to not use herbicides in the course of carrying out the bushfire protection measures on the Bushfire Hazard Management Area.

4.2 Covenants on the part of the Owner

- a. The Owner consents to the Protected Owner, its agents and contractors, having such access as is reasonably necessary including with vehicles and machinery to the Bushfire Hazard Management Area including, as necessary, over the balance of the Land, in accordance with the provisions of this Agreement, for the purpose of initially implementing bushfire protection measures and thereafter maintaining the Bushfire Hazard Management Area in a fire safe condition as contemplated by this Agreement.
- b. The Owner agrees to not prevent, hinder or obstruct in any way the Protected Owner or its agents and contractors in exercising the rights conferred under clause 4.2(a).

4.3 Enforcement

- a. Council may enforce the covenants in this Agreement at its sole discretion. The Protected Owner and the Owner agree that Council has no enforcement obligation in respect of this Agreement. Enforcement of this Agreement is to be at the suit of or by action by such of the Protected Owner or the Owner as may feel aggrieved by any conduct, act or omission on the part of the other.
- b. The Protected Owner and Council agree that the Owner has no responsibility or legal duty to the Protected Owner or to Council to ensure that the Protected Owner implements the measures contemplated by this Agreement on the Bushfire Hazard Management Area.

5. RELEASES AND INDEMNITIES

To the fullest extent allowable at law the Protected Owner releases and indemnifies the Owner and Council jointly and severally from any claim, expense, liability, loss or injury including death arising from or connected with:

- a. anything done on the Bushfire Hazard Management Area or the Land by the Protected Owner, its agents or contractors, in exercising the rights conferred by

this Agreement except where and to the extent that any such claim, expense, liability, loss or injury including death is caused or contributed to by any negligent act or omission on the part of the Owner; or

- b. any failure on the Protected Owner's part to implement the bushfire protection measures contained within the Report and maintain the Bushfire Hazard Management Area in accordance with the Protected Owner's rights under this Agreement.

6. LEGAL RIGHTS AND INTERESTS LIMITED

This Agreement confers on the Protected Owner no legal rights in respect of or legal interest in the Bushfire Hazard Management Area except to the extent contemplated by and necessary for the operation of this Agreement.

7. TERM

- a. In accordance with section 74 of the Act, this Agreement shall commence on the Commencement Date and end at the end on the Expiry Date.
- b. In accordance with section 78(2) of the Act, the Council agrees to sign all documents reasonably required by the Owner and Protected Owner as soon as practicable after the Expiry Date to give the Recorder of Titles notice, in a form approved by the Recorder of Titles, of the ending of this Agreement.

8. DISPUTE

- a. If a dispute arises between the parties under this Agreement, then (except in the case of action required to be taken under statute) the parties agree that it must be resolved expeditiously in accordance with the provisions of this clause.
- b. If a dispute arises requiring resolution, a party must serve a notice on the other specifying the nature and substance of the matter in dispute.
- c. If, within thirty (30) days of a notice under clause 8(b) being served, the parties are unable to resolve the dispute, then the dispute must be submitted by the parties for resolution under the following sub-clauses.
- d. The matter in dispute must be referred for resolution by a person of appropriate qualifications and experience, as agreed between the parties, who will act as mediator and conduct a mediation concerning the matter in dispute.
- e. The costs of all mediation under this clause are to be shared equally between the parties.
- f. Each of the parties agrees to use their best endeavours to resolve the dispute through mediation.
- g. If a dispute cannot be settled within thirty (30) days (or such other period as the parties agree) of one party serving a notice of that dispute in accordance with

clause 8(b), the dispute must be determined under the provisions of the *Commercial Arbitration Act 1986*.

9. SEVERANCE

If any provision of this Agreement or its application to any person or circumstance is or becomes invalid, illegal or unenforceable, then so far as possible, the provision will be read down to the extent necessary to ensure that it is not illegal, invalid or unenforceable. If any provision or part of it cannot be so read down, then the provision or part of it will be taken to be void and severable and the remaining provisions of this Agreement will not be affected or impaired in any way.

10. NOTICES

- a. A notice or other communication given or made under this Agreement must be in writing and addressed to the party to whom the notice is to be given at the address for service of notices as agreed by the parties from time to time.
- b. A notice or other communication is taken to have been duly served:
 - i. in the case of hand delivery - when delivered;
 - ii. if sent by prepaid post - on the third business day after the date of posting;
 - iii. if sent by facsimile transmission (only if the sending facsimile machine produces a print out of the time, date and uninterrupted transmission record of the sending of the notice) - upon completion of sending if completion is within ordinary business hours in the place where the recipient's facsimile machine is located, but if not, then at 9.00 a.m. on the next business day in that place;
 - iv. if sent by email, when the recipient becomes capable of receiving the email during ordinary business hours (unless the sender receives an automated message that the email has been delayed or delivery has failed).
- c. A notice or other communication given or made under this Agreement is sufficient if:
 - i. in the case of the Council, it is under the hand of the General Manager or a duly authorised officer of the Council or the Council's solicitors;
 - ii. in the case of the Owner or Protected Owner, it is under the hand of the Owner or Protected Owner or their respective solicitors.
- d. A printed or copied signature is sufficient for the purposes of sending any demand, written consent or other communication by facsimile transmission or by email.

2/11/23

11. COSTS

The Owner and Council agree that:

- a. the Owner must bear the costs and disbursements associated with the preparation, negotiation, registration and notification of the ending of this Agreement including any costs or disbursements incurred or to be incurred by Council; and
- b. unless this Agreement provides to the contrary, each party must pay its own costs incurred in the future operation of this Agreement.

12. COUNCIL POWERS

The parties acknowledge and agree that this Agreement does not fetter or restrict the powers or discretions of Council as planning authority in any way, including to make any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of plans relating to 74 Sugarloaf Road or development of 74 Sugarloaf Road.

GENERAL NOTES

- CHECK & VERIFY ALL DIMENSIONS & LEVELS ON SITE
- WRITTEN DIMENSIONS TO TAKE PREFERENCE OVER SCALED
- ALL WORK TO BE STRICTLY IN ACCORDANCE WITH NCC 2022, ALL S.A.A.. CODES & LOCAL AUTHORITY BY-LAWS
- ALL DIMENSIONS INDICATED ARE FRAME TO FRAME AND DO NOT ALLOW FOR WALL LININGS
- CONFIRM ALL FLOOR AREAS
- ALL PLUMBING WORKS TO BE STRICTLY IN ACCORDANCE WITH A.S. 3500, NCC 2022 & APPROVED BY COUNCIL INSPECTOR
- BUILDER/PLUMBER TO ENSURE ADEQUATE FALL TO SITE CONNECTION POINTS IN ACCORDANCE WITH A.S. 3500 FOR STORMWATER AND SEWER BEFORE CONSTRUCTION COMMENCES
- THIS DRAWING IS TO BE READ IN CONJUNCTION WITH THE ENGINEER'S STRUCTURAL DRAWINGS
- ALL WINDOWS AND GLAZING TO COMPLY WITH A.S. 1288 & A.S. 2047
- ALL SET OUT OF BUILDINGS & STRUCTURES TO BE CARRIED OUT BY A REGISTERED LAND SURVEYOR AND CHECKED PRIOR TO CONSTRUCTION
- IF CONSTRUCTION OF THE DESIGN IN THIS SET OF DRAWINGS DIFFER FROM THE DESIGN AND DETAIL IN THESE AND ANY ASSOCIATED DOCUMENTS BUILDER AND OWNER ARE TO NOTIFY DESIGNER
- BUILDER'S RESPONSIBILITY TO COMPLY WITH ALL PLANNING CONDITIONS
- BUILDER TO HAVE STAMPED BUILDING APPROVAL DRAWINGS AND PERMITS PRIOR TO COMMENCEMENT OF CONSTRUCTION
- CONSTRUCTION TO COMPLY WITH AS 3959, READ IN CONJUNCTION WITH BUSHFIRE ATTACK LEVEL (BAL) ASSESSMENT REPORT.

SURVEYORS NOTES

- THIS PLAN AND ASSOCIATED DIGITAL MODEL IS PREPARED FOR CUNIC HOMES FROM A COMBINATION OF FIELD SURVEY AND EXISTING RECORDS FOR THE PURPOSE OF DESIGNING NEW CONSTRUCTIONS ON THE LAND AND SHOULD NOT BE USED FOR ANY OTHER PURPOSE.
- THE TITLE BOUNDARIES AS SHOWN ON THIS PLAN WERE NOT MARKED AT THE TIME OF THE SURVEY AND HAVE BEEN DETERMINED BY PLAN DIMENSIONS ONLY AND NOT BY FIELD SURVEY. NO MEASUREMENTS OR OFFSETS ARE TO BE DERIVED BETWEEN THE FEATURES ON THIS PLAN AND THE BOUNDARY LAYER. THE RELATIONSHIP BETWEEN THE FEATURES IN THIS MODEL AND THE BOUNDARY LAYERS CANNOT BE USED FOR ANY SET OUT PURPOSES OR TO CONFIRM THE POSITION OF THE TITLE BOUNDARIES ON SITE.
- IF ANY STRUCTURES ARE DESIGNED ON OR NEAR A BOUNDARY WE WOULD RECOMMEND THE BOUNDARY MARKS PRESENT BE ACCURATELY VERIFIED OR THE STRUCTURE BE SET OUT BY A REGISTERED LAND SURVEYOR.
- SERVICES SHOWN HAVE BEEN LOCATED WHERE VISIBLE BY FIELD SURVEY. PRIOR TO ANY DEMOLITION, EXCAVATION OR CONSTRUCTION ON THE SITE, THE RELEVANT AUTHORITY SHOULD BE CONTACTED FOR POSSIBLE LOCATION OF FURTHER UNDERGROUND SERVICES AND DETAILED LOCATIONS OF ALL SERVICES.
- THIS NOTE FORMS AN INTEGRAL PART OF THE PLAN/DATA. ANY REPRODUCTION OF THIS PLAN/MODEL WITHOUT THIS NOTE ATTACHED WILL RENDER THE INFORMATION SHOWN INVALID.
- HORIZONTAL DATUM: GDA2020 / VERTICAL DATUM: AHD
- BEARING DATUM: MGA
- CONTOUR INTERVALS: 0.25m
- DATE: 12.06.2026

SEWER AND WATER SERVICES

- ALL WORKS IN ACCORDANCE WITH WATER SUPPLY CODE OF AUSTRALIA AND TASWATER SUPPLEMENTS
- WORKS TO BE DONE BY TASWATER AT DEVELOPERS COST

THIS PROJECT HAS BEEN DETERMINED TO HAVE A BUSHFIRE ATTACK LEVEL (BAL) OF - ?? REFER TO ASSESSMENT FOR FURTHER DETAILS. ALL CONSTRUCTION MUST COMPLY WITH AS3959.
